IEventDispatcher

```
graph BT; MainEventDispatcher[MainEventDispatcher] --> AbstractThreadedEventDispatcher[AbstractThreadedEventDispatcher]; AbstractThreadedEventDispatcher --> IEventDispatcher[IEventDispatcher];
```

The diagram illustrates a class hierarchy with three levels. At the top is the `IEventDispatcher` interface, represented by a grey-shaded box. Below it is the `AbstractThreadedEventDispatcher` class, represented by a white box. At the bottom is the `MainEventDispatcher` class, also represented by a white box. Blue arrows indicate the inheritance relationship, pointing from the `MainEventDispatcher` class up to the `AbstractThreadedEventDispatcher` class, and from the `AbstractThreadedEventDispatcher` class up to the `IEventDispatcher` interface.
